## AMERICAN STOCKS RISING

Good News From South Africa Sends Them Up in London.

The Market Strengthened Further by Lowered Discount Rates-Money Easier at the Banks of England an Advance of Small Proportions.

NEW YORK, Jan. 25,-The London Stock Market was substantially strengthened today by the advices relating to the successful attack of the British forces on Spion Kop, and further by a reduction in the Bank of England's discount rate to 4 per cent, which was accompanied by a reduction of 1 1-2 per cent in the bank of France's figures. Owing to these circumstances London prices showed advances which in some instances extended to over int in American stocks. There was one point in American stocks. There was a fractional advance in consols, and indeed all quarters of the market in London were

all quarters of the market in London were reported fairly buoyant.

The American Stock Market accepted the advances shown in the London prices in the initial transactions. Louisville and Nashville, St. Paul. and Union Pacific, common, showed opening gains averaging one point, and in the industrial quarter American Steel Wire, Sugar Refining, and Glucose were notably strong. Sugar Refining reacted rather sharply after the early dealings, but continued to rule above its final figures of yesterday. A number of other stocks also showed material recessions from the initial advances, and after other stocks also showed material reces-sions from the initial advances, and after the opening the market had a somewhat confused tone. This was probably in no small measure due to the confusion of mind created by the misleading accounts of the South Africa situation, which apof the South Africa situation, which appeared in some of the newspapers.

Aside from the African advices, and the developments of the European money markets, there was nothing that was new over night to engage attention. Foreign houses were buyers of the international shares.

The earning of the Ohio soft coal lines are increasing steadily and rapidly. The earnings of the Hocking Valley for the third week of January will be a record breaker it is said. The Wheeling and

and Federal Steel, common, were both strong this morning. The first opened up to 50, an advance of a point, and seemed inclined to go higher later in the day, although there was fairly good selling on the advance. News of large foreign orders for these and other steel com-panies is a most encouraging promise of good future earnings for them.

The traction securities were opened with advances, as were Sugar and Tobacco, but slight declines occurred in them all later

F. B. Thurber, chairman of the committee on railroad transportation, presented both the reports of the old and the new committees. He spoke prinipally of the rates of transportation and freight classification. The report recommended the passage of the bill in Congress presented December 12. 1899, by Senator Cullom, amending the bill regulating interstate commerce. The report favored the addition of a clause to this bill relative to the right of railroad corporations to have associations for the purpose of fixing rates and freight classifications. This report was signed by all but one of the committee, William M. Coates, of Philadeiphia. Mr. Coates presented a resolution in favor of the resolutions accepted by the board at last year's meeting.

Mr. Thurber spoke in behalf of his com-nittee, recommending the adoption of the

following resolution:
"Resolved, That the National Board of Trade reaffirms its approval of the bill known as the Anti-Scalping bill, now pending in Congress, designed to protect both travelers and carriers against fraudulent and irregular practices in passenger traffic."

Mr. Anderson, of Pittsburg, presented report of the special postage commit-This report contained a resolution to effect that the board should express favor of the adoption of 1 cent genral letter postage at as early a date as pos-ible, and the immediate adoption of 1-cent ocal letter postage. This report was manimously accepted.

A resolution in favor of the adoption of the cheap parcel post system was also pre-sented by this committee, and was accept-ed by the board.

Mr. Anderson of Pittsburg made an ad-dress in favor of reconsidering the vote on

a resolution in the postal report of las year, presented by Mr. Acker. Mr. Ander-son endeavored to show the errors in Mr. Acker's judgment on the railroad mail pay proposition. He was followed by Mr. C Patterson of Philadelphia, one of the directors of the Pennsylvania Railroad. Mr. Patterson dealt strongly with the errors in Mr. Acker's report. He showed the board that the statement that the railroads receive between 12 and 13 cents per ton pe mile mail pay all over the country, wa wrong.

Between New York and Philadelphia or said, the company receives only 7 and 1 cents per ton per mile from the Gov-ctament. This, he said, is the average rate on roads with heavy mail traffic. He said that he did not appear in behalf of the railroad side of the question.

Mr. Acker firmly defended his position

and a lengthy discussion followed Mr. Raymond, of Detroit, cleared the

situation by presenting a substitute resolu-tion as follows:
